I Nengah Swastika (Tadulako University, Indonesia)
Muhammad Ery Wijaya (Climate Policy Initiative Indonesia)
Prawira Fajarindra Belgiawan (ETH Zurich, Switzerland)

Aims and Scope

The International Journal of Sustainable Future for Human Security (J-Sustain) originated from the need to provide an interdisciplinary forum where the most serious problems affecting a sustainable future for human security can be discussed, in recognition of the fact that many future problems cannot be solved by a "siloed" approach. The emphasis on sustainable futures is in response to the general awareness of the need to solve numerous human-related problems resulting from the rapid growth of modern society. The topic of sustainable futures for human security needs to be discussed in an integrated way, in accordance with the principles of sustainability, considering energy and materials supply, economics and trade, technology, cities, agriculture, social and environmental aspects.

International Journal of Sustainable Future for Human Security
Vol. 4, No. 2 (2016)

Contents

Editorial

Benjamin C. McLellan, N. Agya Utama	1
Evaluation of Tax Incentive Policy for Low Carbon Industries in Indonesia Titi Muswati Putranti	2-15
Synthesis of Nanocarbon from Polyethylene Plastic Using Stainless Steel Catalyst via Oxidative Heat Treatment Preparation Method Praswasti PDK Wulan, Kevin Damar Cendana	16-21
Sustaining Existing and Prospective Passengers on Urban Public Buses: The Case Study of Rapid Kuantan, Pahang, Malaysia Zakiah Ponrahono, Syahriah Bachok, Mariana Mohamed Osman, and Mansor Ibrahim	22-29
Pineapple Fibre Thread as a Green and Innovative Instrument for Textile Restoration Zumahiran Kamarudin, Nur Farhana Mohd Yusof	30-35
Why Sustainable Design Should Be in Accordance with a Participatory Design Approach – The 1st phase of Sustainable Kampong Model: Margamulya Village, Mauk, Tangerang Martin L Katoppo, Felia Srinaga and July Hidayat	36-43
Potential in-Situ Adaptation Strategis for Climate-Related Sea-Level Rise: Insights from a Small Island in The Philippines Experiencing Earthquake-Induced Land Subsidence Ma. Laurice Jamero, Miguel Esteban and Motoharu Onuki	44-53
