Subject Editors:

Energy:

Hooman Farzaneh (Kyoto University, Japan)

Environment:

Ari Rahman (Pertamina University, Indonesia)

Build Environment:

Robby Permata (Bung Hatta University, Indonesia)

Forestry

Hatma Suryatmojo (Universitas Gadjah Mada, Indonesia)

Food Security & Agriculture:

Slamet Widodo (Bogor Agricultural University, Indonesia)

Disaster & Mitigation:

Miguel Esteban (Tokyo University, Japan)

Social Politics:

Agus Trihartono (Jember University, Indonesia)

Editorial Board:

Qi Zhang (China University of Petroleum, Beijing, China)
Yulianto P. Prihatmaji (Islamic University of Indonesia, Indonesia)
Taro Sonobe (Kyoto University, Japan)
Md. Nazrul Islam (Jahangirnagar University, Bangladesh)
Yusuke Toyoda (Ritsumeikan University, Japan)
Halimin Herjanto (Mc Kendree University, USA)
Novri Susan (Universitas Airlangga, Indonesia)

Associate Editors:

Suharman Hamzah (Hasanudin University, Indonesia)
Hadiyanto (Diponegoro University, Indonesia)
Fadjar Goembira (Andalas University, Indonesia)
Puji Harsanto (Muhammadiyah Yogyakarta University, Indonesia)
Wignyo Adiyoso (National Development Planning Agency [BAPPENAS])
Nino Viartasiwi (Ritsumeikan University, Japan)
I Nengah Swastika (Tadulako University, Indonesia)
Muhammad Ery Wijaya (Climate Policy Initiative Indonesia)
Prawira Fajarindra Belgiawan (ETH Zurich, Switzerland)

Aims and Scope

The International Journal of Sustainable Future for Human Security (J-Sustain) originated from the need to provide an interdisciplinary forum where the most serious problems affecting a sustainable future for human security can be discussed, in recognition of the fact that many future problems cannot be solved by a "siloed" approach. The emphasis on sustainable futures is in response to the general awareness of the need to solve numerous human-related problems resulting from the rapid growth of modern society. The topic of sustainable futures for human security needs to be discussed in an integrated way, in accordance with the principles of sustainability, considering energy and materials supply, economics and trade, technology, cities, agriculture, social and environmental aspects.

International Journal of Sustainable Future for Human Security
Vol. 5, No. 2 (2017)

Contents

Editorial

- Benjamin C. McLellan, N. Agya Utama 1
- Water Recovery Of Black Liquor from Alkaline Pretreatment of Bioethanol Production from Oil Palm Empty Fruit Bunch by Coagulation and Flocculation Method**
Dian Burhani and Ajeng Arum Sari 2-10
- Power of Networks and Peer Pressure: An Analysis of Slum Sanitation Program in Mumbai**
Vivek Anand Asokan 11-20
- The Identification of Key Sector in CO₂ Emissions in Production Perspective of Indonesia: an Input-Output Analysis**
Muhammad Handry Imansyah and Titi Putranti 21-29
- Study of Hydrogen Station Installation Utilizing Wind Power: Case study in Hokkaido**
Kenji Niwa and Benjamin McLellan 30-38
- Resilience to Sudden Climate Change: The Impact of the Bromo 2010 Volcanic Ash Eruption on the Growth of Chilies**
Arry Y Nurhayati, Yuda C Hariadi and A. Sholihin 39-49
- Model Development on the Sustainable Financial Aspects of Urban Polders in the Province of DKI Jakarta**
Wied Wiwoho Winaktoe, Bart Schultz and F.X. Suryadi 50-58
