Aims and Scope

The International Journal of Sustainable Future for Human Security (J-SustaiN) originated from the need to provide an interdisciplinary forum where the most serious problems affecting a sustainable future for human security can be discussed, in recognition of the fact that many future problems cannot be solved by a "siloed" approach. The emphasis on sustainable futures is in response to the general awareness of the need to solve numerous human-related problems resulting from the rapid growth of modern society. The topic of sustainable futures for human security needs to be discussed in an integrated way, in accordance with the principles of sustainability, considering energy and materials supply, economies and trade, technology, cities, agriculture, social and environmental aspects.
## Contents

**Editorial**  
N. Agya Utama, Benjamin C. McLellan ............................................................... 1-2

**Utilization of Agroindustry Wastewater as Growth Medium for Microalgae based Bioenergy Feedstock in Indonesia (an Overview)**  
M.M. Azimatun Nur, H. Hadiyanto ................................................................. 3-7

**Study of Performance and Environmental Emissions of a Gasoline Spark Ignition Engine**  
Mehrnoosh Dashtia, Ali Asghar Hamidi, Ali Asghar Mozafari ......................................................... 8-14

**Public Disclosure and Environmental Performance in the Laguna de Bay Region, Philippines**  
Ria Lambino ............................................................................................................. 15-22

**Statistical Model on the Assessment of Cultural Sustainable Development in Urban Area, Case Study: Tehran**  
Majid Rahmanian, Mojtab Amiri Koshkaki, Mousa Pour Mousavic .......................... 23-29

**The Carrying Capacity of Genuk Industrial Zone, Semarang**  
Sudanti, Sudharto P. Hadi, Sutikno, Purwanto ............................................................... 30-34

**Analysing the Possible Physical Impact of Flood Disasters on Cultural Heritage in Ayutthaya, Thailand**  
Wittaya Daungthima, Kazunori Hokao ............................................................................. 35-39

**Sustainable Development: A Review of Theoretical Contributions**  
D. Tuazon, G.D. Corder, B.C. McLellan ............................................................... 40-48
